MUSIC CLASSES

String Students

The Keyano College Conservatory believes that ensemble experience is integral to the development of a string player. The Conservatory has formalized a policy that once a Keyano Conservatory string student reaches a minimum skill level, as determined by the instructor, the student will be required to enroll in a Keyano string ensemble. The instructor, taking into account the student's ability in technique, note reading, and musicianship, will assess the minimum level.

String Orchestra

This group introduces the student to the concept of ensemble playing. The student's attention is directed towards uniform bowings within each section, following dynamics, watching the conductor's beat, and listening to the other players for both ensemble and tuning purposes. The instructor must hold an audition before registration can occur. Call 780-791-8979 to register and arrange an audition.

JAZZ

Jazz class incorporates a strong technical warm up with the progressions across the floor, followed by an energized routine. The emphasis of training is shared between style, technique, and the demonstration of various steps, turns, and jumps. We will not focus on one style of jazz dance as we feel it is important to incorporate them all for a broader background. Students are encouraged to enroll in a ballet class along with jazz to enhance their dance technique.

In order to progress to Jazz 4, students MUST also be taking ballet classes.

BREAKDANCE

Once viewed as just a 'fad of the 80s', Breakdancing (or Bboying/Bgirling) is what some consider to be the foundation for today's urban dance. Birthed in the streets of New York in the late 60's/early 70's, the unique style and powerful movements have evolved into various forms that provide a high-strength and high-endurance outlet for positive self-expression.
