

PRIMARY CARE PARAMEDIC CERTIFICATE
2019-2020

INSTRUCTOR: Patricia Penton
Office: S109C
Phone: 780-791-4889
Email: patricia.penton@keyano.ca

HOURS OF INSTRUCTION:

Weekly timetable will be distributed the first day of class.

COURSE DESCRIPTION:

PCP 407 - Practical Course 3 credits 150 hours

This course will cover the practical applications of skills required of a PCP. In this course, students will demonstrate skills in a laboratory setting. There is an additional 16 hours for the ITLS Certification course.

Co-requisite: PCP 400

COURSE OUTCOMES:

A PCP is responsible for medical information every day. The medical information obtained from a patient is often shared with other members of the health care team. Accurate and timely sharing of this information assists to promote continuity of care for the patient. In this module, the learner will practice techniques used to obtain patient information, communicate effectively, and communicate patient information in a variety of methods to other members of the health care team.

MODULE OUTCOMES (NOCP competencies)

Upon completion of this module the student will be able to:

1. The student will successfully conduct assessments using appropriate techniques and skills to patients across the lifespan. (4.2a-e; 4.3a-p; 4.4.a-i; 6.1 a-q; 6.2.a-e)
2. The student will appropriately interpret and communicate his/her assessment findings and provide care to patients across the lifespan. (4.2.a-f; 4.3.a; 5.6.a-e; 5.7.a,b; 5.8.b-d; 5.8.h; 5.8.j; 5.8.l; 6.1.a-q; 6.2.a-e; 6.3;a,b)
3. Through use of the Skills Reference Manual, students will successfully demonstrate, in a simulated environment, the skills required of an EMT. (4.4.a-i; 4.5.a; 4.5.c; 4.5.l; 5.1.a-l; 5.2.a-e; 5.3.a-e; 5.4.a-c; 5.5.a-d; 5.5.f; 5.5.i, 5.5.o,p,q)
4. The student will demonstrate appropriate care and concern for patient safety. (3.2.b-e; 3.3.a-c; 3.3.f)

5. The student will successfully, demonstrate behaviours of personal safety and professionalism as required of an EMT. (1.1.a-g; 1.1.j,k; 1.6b,c; 3.1.a; 3.1.d-e; 3.2.a; 3.2.d; 3.3.a-b; 3.3.e,f,g,h; 7.1.a-c; 7.2.a-c)
6. The student will demonstrate, in a simulated environment, appropriate scene assessment, patient survey and redirect priorities appropriately. (4.1a; 4.2.f; 4.3.a-b; 6.1o; 6.3.a,b)
7. The student will successfully demonstrate his/her ability to apply the skills acquired in a test environment through the use of scenario based examinations. (4.3.c-p; 4.4.a-i; 4.5.a,c,l; 5.1.a-l; 5.2.a-e; 5.3.a-e; 5.4.a-c; 5.5.a-d; 5.5.i; 5.5.o-q; 5.6.a-e; 5.7.a,b; 5.8.b,c,d,h,j,l)

COURSE EVALUATION:

The student will demonstrate their personal abilities to apply PCP level skills through the completion of the following assignments. The course evaluation includes three integrated Skill Qualification exams.

CPR and WHMIS certification	Pass/Fail
Medical Skills Qualification Exam (SQ)	40%
Final Medical Skills Qualification Exam (SQ)	20%
Final Trauma Skills Qualification Exam (SQ)	20%
Oral Exam	20%

1. Medical Skills Qualification Exam – The student receives a simulated medical scenario. During the exam, the student is to assess, and treat the illness while following the exam template provided (see orientation and Assignment package). The student must remember to verbalize all actions to ensure the examiner is aware of the “thinking” that is occurring. The student will receive feedback from the instructor immediately after the exam.
2. Final Skills Medical and Trauma Qualification Exams – These exams will follow the same process as the Medical SQ exam except that instructor feedback is given once all students have completed the exam process.
3. Oral Exam – This exam is essentially set up the same way as the SQ exams, except there is no equipment application. In front of a panel of instructors, the student will gather a history from a simulated patient and then communicate the findings through a verbal report and patch report.

International Trauma Life Support (ITLS) Certification

The pre-hospital care industry is a changing industry. In the earlier years of the profession, educational institutes designed short Professional Development courses to assist working practitioners with staying current with their theory and skills. Over the years, the pre-hospital professional adopted many short valued-added courses as an acceptable standard and what was once considered Professional Development, became an entry-level expectation. Keyano College recognizes the importance of maintaining entry-level standards. This course will give the students the opportunity to obtain the “recognized” certification before graduation.

Upon the completion of the *International Trauma Life Support Certification* course, you will come to understand the importance of this value-added course as “a professional development activity.” Students will learn how to relate the base knowledge and skills gained from other College courses to this value-added course.

Evaluation:

1. Multiple choice exam - 80% minimum
2. Successfully complete the ITLS trauma scenario
